

new remote sensing techniques

- Lee** *aerosol plume height climatology with UV/VIS satellite sensors*
- Mei** *a new aerosol optical thickness research product over Cryosphere*
- Hsu** *new “Deep Blue” aerosol products from LEO and GEO satellites*
- Winker** *current ACCP “aerosol” payload options*

joint discussions

*do we understand the complexities of retrievals?
what are major needs for new techniques?*

Yves Govearts
